# **Start With Medicare Basics**

### Know how Medicare works, then choose what works for you

Original Medicare is provided by the federal government. It offers coverage for:

**Hospital stays and inpatient care.** This is called Part A. **Doctor visits.** This is called Part B – you pay a monthly premium for it.

#### Original Medicare does NOT include prescription drug coverage

Ŗ

**Prescription drug coverage.** This is called Part D and is not included with Original Medicare. You are not required to enroll in a Part D plan when you first become eligible for Medicare. If you enroll in a Part D plan in the future, then you will pay a penalty equal to about 1% of the average monthly premium for each month you delayed enrollment. This must be paid monthly as long as you are enrolled in Part D. This is called a Late Enrollment Penalty (LEP).

# Depending on your needs, you may want to add more coverage to Original Medicare

Additional coverage is offered by private insurance companies, such as UnitedHealthcare. You have a couple of different options to choose from:

#### **Option 1: Enroll in a Medicare Advantage plan**

#### Called Part C

This type of plan combines Part A and Part B. Most Medicare Advantage plans also include Part D, so your hospital, medical and prescription drug coverage is all in one plan

#### **Option 2: Add one or both of these to Original Medicare**

#### Medicare Supplement

Helps pay for some of the costs not covered by Original Medicare

#### Extras

Some plans may include extra benefits not included with Original Medicare

Medicare Part D plan Helps pay for prescription drugs and helps you avoid that 1% penalty

Use this book to get familiar with and enroll in a Medicare Advantage plan. Speak with your agent if you are interested in a Medicare Supplement or stand-alone Part D plan.

### Enroll in a Medicare Advantage Part C Preferred Provider Organization (PPO) plan

This plan gives you access to **more than one million network providers**<sup>1</sup> across the country including top doctors and specialists—with no referrals needed. Take advantage of our national network for your plan's lowest out-of-pocket costs.

You can also see out-of-network providers nationwide if they accept Medicare, but keep in mind your costs may be higher.

## Here's how this PPO plan works

Emergency and urgently needed services are covered no matter where you go.

ER

#### Select a primary care provider (PCP) from the network.

It's important to select a PCP from the network in your plan's service area when you enroll in the plan. However, you are not limited to this PCP. You can visit any PCP in or out of the network to oversee and help manage your care.

No referral is needed to see an in or out-of-network specialist or other provider.

You pay your plan copay or coinsurance when you visit a network provider\*. If you see a provider outside the network, your cost may be higher.

#### There's an out-of-pocket spending limit each plan year.

If you reach your limit the plan will pay 100% of your costs for Medicare-covered services for the rest of the year.

This plan includes prescription drug coverage.

<sup>1</sup>Network size varies by market and exclusions may apply.

<sup>\*</sup> Plan copay or coinsurance amounts apply. You can find a complete listing of network providers and facilities within your plan on our website. Please refer to the Summary of Benefits and Benefit Highlights for more complete plan information.

# Are you eligible to enroll in this plan?

#### You are eligible to enroll in this Medicare Advantage plan if:

You are enrolled in Original
 Medicare Parts A and B, and continue to pay your Part B premium

# **Your Drug Coverage**

Review the Drug List (Formulary) in this Enrollment Guide to make sure your prescription drugs are covered by the plan. You should also review the Benefit Highlights in this guide for copays and supply amounts.

#### The amount you pay for covered drugs depends on these 4 things:

#### 1. Drug tiers

Many plans group covered drugs into tiers. Generally, the lower the tier, the less you'll pay. All drugs in the Drug List are assigned to one of these tiers.

#### <sup>1</sup>And select insulin drugs

It's important to know not all generic drugs are lower cost. There are generic drugs in each tier. Be sure to check the Drug List to find out which tier your generic drug is in.

If your drug is in a higher, more expensive tier, ask your doctor if a lower cost alternative could work for you.

#### 2. Where you fill your prescriptions

There are thousands of national and local pharmacies.

You'll need to use network pharmacies to have the plan pay their share for your prescriptions. Visit **AARPMedicarePlans.com** to find a location near you.

#### Simplify with prescriptions delivered to your door

You have a \$0 copay for a 100-day supply of Tier 1 and Tier 2 drugs with OptumRx, our preferred home delivery pharmacy.

OptumRx will send the prescriptions you take regularly right to your door with no cost for standard shipping. Save time by registering online at **optumrx.com** to order new prescriptions, request refills, and more.

#### 3. Prescription drug payment stages

The amount you pay for prescription drugs may change during the year depending on which drug payment stage you're in. Members move through the stages in the order below.

Annual Deductible	There is no deductible for drugs in lower tiers. Your coverage for these drugs starts in the Initial Coverage stage. There is a deductible for drugs in higher tiers. You pay the full cost for drugs in these tiers until you reach the deductible amount. Then you move to the Initial Coverage stage.
Initial Coverage	In this stage, the plan pays its share of the cost and you pay your copay or coinsurance. You generally stay in this stage until your year-to-date total drug cost reaches \$4,660. Then you move to the Coverage Gap stage.
Coverage Gap (Donut Hole)	You pay no more than 25% coinsurance for any generic or brand name drugs until your total out-of-pocket costs reach \$7,400. Then you move to the Catastrophic Coverage stage.
	If you use a covered insulin, you will continue to pay a flat copay through the Coverage Gap.
Catastrophic Coverage	In this stage, you pay 5% of the cost for each of your drugs, or \$4.15 for generic (including brand drugs treated as generic) and \$10.35 for all other drugs (whichever is greater). You stay in this stage for the rest of the plan year.

#### 4. Extra Help from Medicare

People with limited incomes may qualify for Extra Help to pay for their prescription drugs. If you qualify, Medicare could pay for some, or all of, your drug costs including premiums, deductibles and copays. Additionally, if you qualify, you won't have a Coverage Gap or a late enrollment penalty. Many people qualify for these savings and don't even know it.

For more information about Extra Help, contact your local Social Security office or call Social Security at 1-800-772-1213. TTY users should call 1-800-325-0778. You can also apply for Extra Help online at www.socialsecurity.gov/prescriptionhelp.

#### Additional drug coverage is available with this plan

This plan covers some prescription drugs that are not covered by Medicare Part D. This includes Vitamin D (50,000), Sildenafil (generic Viagra), Cyanocobalamin (Vitamin B-12) and Folic Acid (1 mg). These drugs are covered in Tier 2 and are in addition to the ones listed in the plan's Drug List and may not be available with other plans.

This plan has lower, stable out-of-pocket costs for covered insulin. You will pay a maximum of \$35 for a 1-month supply of Part D select insulin drugs during the deductible, Initial Coverage and Coverage Gap or "Donut Hole" stages of your benefit. You will pay 5% of the cost of your insulin in the Catastrophic Coverage stage. This cost sharing does not apply to members who pay a lower copay through Medicare's Extra Help program.

# Medicare Advantage

Other pharmacies are available in our network.

\$0 copay may be restricted to particular tiers, preferred medications, or home delivery prescriptions during the initial coverage phase and may not apply during the coverage gap or catastrophic coverage stage.

#### Use network providers and pharmacies

AARP<sup>®</sup> Medicare Advantage Choice (PPO) has a network of doctors, hospitals, pharmacies, and other providers. With this plan, you have the freedom to enjoy nationwide access to care at innetwork costs when you visit any provider participating in the UnitedHealthcare<sup>®</sup> Medicare National Network (exclusions may apply). Plus, you have the flexibility to visit any provider nationwide who accepts Medicare. You may pay a higher copay or coinsurance when you see an out-of-network provider. When looking at the following charts you'll see the cost differences for network vs. out-of-network care and services. If you use pharmacies that are not in our network, the plan may not pay for those drugs, or you may pay more than you pay at a network pharmacy.

You can go to **AARPMedicarePlans.com** to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions.

# **Important information:** 2022 Medicare star ratings

# UnitedHealthcare - H1278

For 2022, UnitedHealthcare - H1278 received the following Star Ratings from Medicare:

Overall Star Rating:	* * * *	4 stars
Health Services Rating:	* * * *	4 stars
Drug Services Rating:	* * * *	4 stars

Every year, Medicare evaluates plans based on a 5-star rating system.

#### Why Star Ratings are Important

Medicare rates plans on their health and drug services. This lets you easily compare plans based on quality and performance.

Star Ratings are based on factors that include:

- $\hfill\square$  Feedback from members about the plan's service and care
- $\hfill\square$  The number of members who left or stayed with the plan
- □ The number of complaints Medicare got about the plan
- Data from doctors and hospitals that work with the plan

More stars mean a better plan – for example, members may get better care and better, faster customer service.

#### Medicare Advantage Plans (Part C) and Cost Plans

**Medicare Health Maintenance Organization (HMO) Plan** – A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

**Medicare HMO Point-of-Service (HMO-POS) Plan** – A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. HMO-POS plans may allow you to get some services out of network for a higher copayment or coinsurance.

**Medicare Preferred Provider Organization (PPO) Plan** – A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors, providers and hospitals but you can also use out-of-network providers, usually at a higher cost.

**Medicare Private Fee-For-Service (PFFS) Plan** – A Medicare Advantage Plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you – not all providers will. If you join a PFFS Plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

**Medicare Special Needs Plan (SNP)** – A Medicare Advantage Plan that has a benefit package designed for people with special health care needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes, and people who have certain chronic medical conditions.

**Medicare Medical Savings Account (MSA) Plan** – MSA Plans combine a high deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

**Medicare Cost Plan** – In a Medicare Cost Plan, you can go to providers both in and out of network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

#### Stand-alone Medicare Prescription Drug (Part D) Plan

**Medicare Prescription Drug Plan (PDP)** – A stand-alone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare Private Fee-For-Service Plans, and Medicare Medical Savings Account Plans.

#### **Other Related Products**

**Medicare Supplement (Medigap) Products** – Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare (Parts A and B) such as deductibles and coinsurance amounts for Medicare approved services.

**Dental/Vision/Hearing Products** – Plans offering additional benefits for consumers who are looking to cover needs for dental, vision, or hearing. These plans are not affiliated or connected to Medicare.

**Hospital Indemnity Products** – Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray copays/coinsurance. These plans are not affiliated or connected to Medicare.

Review the Provider Directory (or ask your doctor) to make sure the doctors you see now are in the network.

Review the Pharmacy Directory to make sure the pharmacy you use for any prescription medicines is in the network. If the pharmacy is not listed, you will likely have to select a new pharmacy for your prescriptions.

Review the formulary to make sure your drugs are covered.

#### **Understanding Important Rules**

In addition to your monthly plan premium, you must continue to pay your Medicare Part B premium. This premium is normally taken out of your Social Security check each month.

Benefits may change on January 1 of each year.

Our plan allows you to see providers outside of our network (non-contracted providers). However, while we will pay for covered services the provider must agree to treat you. Except in an emergency or urgent situation, non-contracted providers may deny care. In addition, you will pay a higher copay for services received by non-contracted providers.
