Start With Medicare Basics

Know how Medicare works, then choose what works for you

Original Medicare is provided by the federal government. It offers coverage for:

Hospital stays and inpatient care.
This is called Part A.

Doctor visits. This is called Part B – you pay a monthly premium for it.

Original Medicare does NOT include prescription drug coverage

Prescription drug coverage. This is called Part D and is not included with Original Medicare. You are not required to enroll in a Part D plan when you first become eligible for Medicare. If you enroll in a Part D plan in the future, then you will pay a penalty equal to about 1% of the average monthly premium for each month you delayed enrollment. This must be paid monthly as long as you are enrolled in Part D. This is called a Late Enrollment Penalty (LEP).

Depending on your needs, you may want to add more coverage to Original Medicare

Additional coverage is offered by private insurance companies, such as UnitedHealthcare. You have a couple of different options to choose from:

Option 1: Enroll in a Medicare Advantage plan

Called Part C

This type of plan combines Part A and Part B. Most Medicare Advantage plans also include Part D, so your hospital, medical and prescription drug coverage is all in one plan

Extras

Some plans may include extra benefits not included with Original Medicare

Option 2: Add one or both of these to Original Medicare

Medicare Supplement

Helps pay for some of the costs not covered by Original Medicare

Medicare Part D plan

Helps pay for prescription drugs and helps you avoid that 1% penalty

Use this book to get familiar with and enroll in a Medicare Advantage plan. Speak with your agent if you are interested in a Medicare Supplement or stand-alone Part D plan.

Enroll in a Medicare Advantage Part C Health Maintenance Organization — Point of Service (HMO-POS) plan

This plan has a network of quality doctors, hospitals and other care providers, designed to help you get the care you need.

Your plan does not cover medical care from providers outside our network. However, you have access to see dental providers inside and outside of the network. Check the Evidence of Coverage for information on which dental services the plan covers out-of-network.

If you need to see a network specialist, make sure you get a referral from your primary care provider (PCP) first.

Here's how this HMO-POS plan works

Always see network providers for your care. The plan does not cover medical care from providers outside our network, except for emergency care, urgent care and renal dialysis services.

Emergency and urgently needed services are covered no matter where you go.

Select a primary care provider (PCP).

This plan requires you to select a PCP to oversee and help manage your care.

A referral is needed to see a network specialist or other provider.

You pay your plan copay or coinsurance when you visit a network provider*.

If you see a provider outside the network, you will have to pay the full cost for services yourself, except for covered dental care.

There's an out-of-pocket spending limit for network care each plan year.

If you reach your limit the plan will pay 100% of your costs for Medicare-covered services for the rest of the year.

This plan includes prescription drug coverage.

* Plan copay or coinsurance amounts apply. You can find a complete listing of network providers and facilities within your plan on our website. Please refer to the Summary of Benefits and Benefit Highlights for more complete plan information.

Are you eligible to enroll in this plan?

You can enroll in a Chronic Condition Special Needs Plan (CSNP) if you're enrolled in Original Medicare Parts A and B and have diabetes, heart failure and/or a cardiovascular disorder. This plan helps connect you to people and services that can meet the health care needs of people with your condition. CSNP plans usually include routine foot care, routine vision and hearing coverage, and care management services provided by a dedicated team of nurses. Our goal is to give you the support you need to help manage your health and help maintain your independence.

To be eligible to enroll in this plan you must have been diagnosed with:

At least one of these conditions

- Chronic heart failure
- Diabetes mellitus

Or, one of the following Cardiovascular disorders

- Cardiac arrhythmias
- Coronary artery disease
- Peripheral vascular disease
- Chronic venous thromboembolic disorder

Your Drug Coverage

Review the Drug List (Formulary) in this Enrollment Guide to make sure your prescription drugs are covered by the plan. You should also review the Benefit Highlights in this guide for copays and supply amounts.

The amount you pay for covered drugs depends on these 4 things:

1. Drug tiers

Many plans group covered drugs into tiers. Generally, the lower the tier, the less you'll pay. All drugs in the Drug List are assigned to one of these tiers.

¹ And select insulin drugs

It's important to know not all generic drugs are lower cost. There are generic drugs in each tier. Be sure to check the Drug List to find out which tier your generic drug is in.

If your drug is in a higher, more expensive tier, ask your doctor if a lower cost alternative could work for you.

2. Where you fill your prescriptions

There are thousands of national and local pharmacies.

You'll need to use network pharmacies to have the plan pay their share for your prescriptions. Visit [UHC.com/Medicare](https://www.uhc.com/Medicare) to find a location near you.

Simplify with prescriptions delivered to your door

You have a \$0 copay for a 100-day supply of Tier 1 and Tier 2 drugs with OptumRx, our preferred home delivery pharmacy.

OptumRx will send the prescriptions you take regularly right to your door with no cost for standard shipping. Save time by registering online at [optumrx.com](https://www.optumrx.com) to order new prescriptions, request refills, and more.

3. Prescription drug payment stages

The amount you pay for prescription drugs may change during the year depending on which drug payment stage you're in. Members move through the stages in the order below.

Annual Deductible	This plan does not have a deductible. Your coverage starts in the Initial Coverage stage.
Initial Coverage	In this stage, the plan pays its share of the cost and you pay your copay or coinsurance. You generally stay in this stage until your year-to-date total drug cost reaches \$4,660. Then you move to the Coverage Gap stage.
Coverage Gap (Donut Hole)	You pay no more than 25% coinsurance for any generic or brand name drugs until your total out-of-pocket costs reach \$7,400. Then you move to the Catastrophic Coverage stage. If you use a covered insulin, you will continue to pay a flat copay through the Coverage Gap.
Catastrophic Coverage	In this stage, you pay 5% of the cost for each of your drugs, or \$4.15 for generic (including brand drugs treated as generic) and \$10.35 for all other drugs (whichever is greater). You stay in this stage for the rest of the plan year.

4. Extra Help from Medicare

People with limited incomes may qualify for Extra Help to pay for their prescription drugs. If you qualify, Medicare could pay for some, or all of, your drug costs including premiums, deductibles and copays. Additionally, if you qualify, you won't have a Coverage Gap or a late enrollment penalty. Many people qualify for these savings and don't even know it.

For more information about Extra Help, contact your local Social Security office or call Social Security at 1-800-772-1213. TTY users should call 1-800-325-0778. You can also apply for Extra Help online at www.socialsecurity.gov/prescriptionhelp.

Additional drug coverage is available with this plan

This plan covers some prescription drugs that are not covered by Medicare Part D. This includes Vitamin D (50,000), Sildenafil (generic Viagra), Cyanocobalamin (Vitamin B-12) and Folic Acid (1 mg). These drugs are covered in Tier 2 and are in addition to the ones listed in the plan's Drug List and may not be available with other plans.

This plan has lower, stable out-of-pocket costs for covered insulin. You will pay \$25 or less for a 1-month supply of Part D select insulin drugs during the deductible, Initial Coverage and Coverage Gap or "Donut Hole" stages of your benefit. You will pay 5% of the cost of your insulin in the Catastrophic Coverage stage. This cost sharing does not apply to members who pay a lower copay through Medicare's Extra Help program.

Other pharmacies are available in our network.

\$0 copay may be restricted to particular tiers, preferred medications, or home delivery prescriptions during the initial coverage phase and may not apply during the coverage gap or catastrophic coverage stage.

OptumRx is an affiliate of UnitedHealthcare Insurance Company. Optum Home Delivery is a service of OptumRx. You are not required to use Optum Home Delivery through OptumRx for a 100-day supply of your maintenance medications.

About this plan

UnitedHealthcare® Medicare Advantage Ally (HMO-POS C-SNP) is a Medicare Advantage HMOPOS plan with a Medicare contract.

To join this plan, you must be entitled to Medicare Part A, be enrolled in Medicare Part B, live within our service area listed below, and be a United States citizen or lawfully present in the United States.

UnitedHealthcare® Medicare Advantage Ally (HMO-POS C-SNP) is a Chronic or Disabling Condition Special Needs Plan designed to specifically help people who have one or more of the following conditions: Cardiovascular Disorders, Chronic Heart Failure, and Diabetes mellitus.

Our service area includes these counties in:

Texas: Collin, Cooke, Dallas, Denton, Ellis, Erath, Fannin, Grayson, Hood, Hunt, Johnson, Kaufman, Parker, Rockwall, Tarrant.

Use network providers and pharmacies

UnitedHealthcare® Medicare Advantage Ally (HMO-POS C-SNP) has a network of doctors, hospitals, pharmacies, and other providers. For routine dental services, you can use providers that are not in our network. This health plan requires you to select a primary care provider (PCP) from the network. Your PCP can handle most routine health care needs and will be responsible to coordinate your care. If you need to see a network specialist or other network provider, you may need to get a referral from your PCP. We encourage you to find out which specialists and hospitals your primary care provider would recommend for you and would refer you to for care, prior to selecting them as your plan's PCP. If you use pharmacies that are not in our network, the plan may not pay for those drugs, or you may pay more than you pay at a network pharmacy.

You can go to **UHC.com/Medicare** to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions.

Medicare Advantage Plans (Part C) and Cost Plans

Medicare Health Maintenance Organization (HMO) Plan — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

Medicare HMO Point-of-Service (HMO-POS) Plan — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. HMO-POS plans may allow you to get some services out of network for a higher copayment or coinsurance.

Medicare Preferred Provider Organization (PPO) Plan — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors, providers and hospitals but you can also use out-of-network providers, usually at a higher cost.

Medicare Private Fee-For-Service (PFFS) Plan — A Medicare Advantage Plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you — not all providers will. If you join a PFFS Plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

Medicare Special Needs Plan (SNP) — A Medicare Advantage Plan that has a benefit package designed for people with special health care needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes, and people who have certain chronic medical conditions.

Medicare Medical Savings Account (MSA) Plan — MSA Plans combine a high deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

Medicare Cost Plan — In a Medicare Cost Plan, you can go to providers both in and out of network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

Stand-alone Medicare Prescription Drug (Part D) Plan

Medicare Prescription Drug Plan (PDP) — A stand-alone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare Private Fee-For-Service Plans, and Medicare Medical Savings Account Plans.

Other Related Products

Medicare Supplement (Medigap) Products — Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare (Parts A and B) such as deductibles and coinsurance amounts for Medicare approved services.

Dental/Vision/Hearing Products — Plans offering additional benefits for consumers who are looking to cover needs for dental, vision, or hearing. These plans are not affiliated or connected to Medicare.

Hospital Indemnity Products — Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray copays/coinsurance. These plans are not affiliated or connected to Medicare.

Enrollment checklist

Before making an enrollment decision, it is important that you fully understand our benefits and rules. If you have any questions, you can call and speak to a Customer Service Representative at the number listed on the back cover of this book.

Understanding the Benefits

- ✓ The Evidence of Coverage (EOC) provides a complete list of all coverage and services. It is important to review plan coverage, costs, and benefits before you enroll. Visit our plan website or call to view a copy of the EOC. Our phone number and website are listed on the back cover of this book.
- ✓ Review the Provider Directory (or ask your doctor) to make sure the doctors you see now are in the network. If they are not listed, it means you will likely have to select a new doctor.
- ✓ Review the Pharmacy Directory to make sure the pharmacy you use for any prescription medicines is in the network. If the pharmacy is not listed, you will likely have to select a new pharmacy for your prescriptions.
- ✓ Review the formulary to make sure your drugs are covered.

Understanding Important Rules

- ✓ In addition to your monthly plan premium, you must continue to pay your Medicare Part B premium. This premium is normally taken out of your Social Security check each month.
- ✓ Benefits may change on January 1 of each year.
- ✓ Our plan allows you to see providers outside of our network (non-contracted providers). However, while we will pay for covered services the provider must agree to treat you. Except in an emergency or urgent situation, non-contracted providers may deny care. In addition, you will pay a higher copay for services received by non-contracted providers.
- ✓ This plan is a Chronic Condition Special Needs Plan (C-SNP). Your ability to enroll will be based on verification that you have a qualifying specific severe or disabling chronic condition.
